

Parent/Carer Homework

Some websites/apps are listed at the top and bottom of this page,

How many do you recognise?

Do you know how they work?

Now ask your child the same questions to see if there are any differences.....

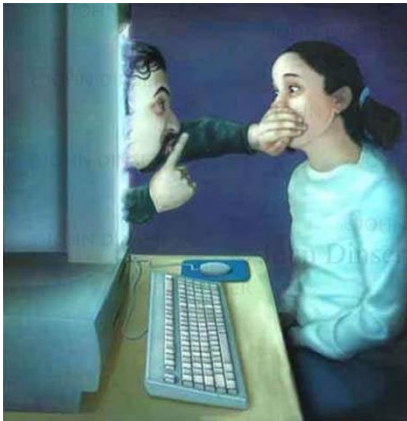

Research shows that some children are visiting such websites and apps that leave them exposed online, with their parents/carers unaware of the dangers. With that in mind, we have been very lucky to secure the following workshop.

Stranger Danger & Online Safety 6-8pm Tuesday 15 October, Springfield Primary School

This workshop is so sought after that it has taken almost two years to book. When other schools, including Boswells, have staged this event they have been inundated with parents and requests for further sessions. **Please don't be the one who misses out.**

The session will be delivered by John Woodley and John Staines, widely known as 'The 2 Johns', whose reputation for delivering captivating and key messages about online safety is recognised nationally.

Extensive testimonials can be found on their website: www.esafetytraining.org together with useful resources for parents and carers to ensure their child stays safe online.

The children and staff will be taking part in similar workshops throughout the day but the evening session is adults only.

We are offering a film screening in the infant hall **for children whose parents/carers are attending the session** but please note, this is just for children who attend Springfield Primary School and we do not have capacity for younger siblings and children who attend other schools.

Places for the film screening must be booked in advance, on the reply slip below and cannot be booked on the evening.

We hope to see you there.

Jacquelyn Pick
Headteacher
